

CITY OF SONORA

Energy Action Plan

WHAT IS AN ENERGY ACTION PLAN?

An Energy Action Plan is a roadmap for expanding energy efficiency, renewable energy, and water efficiency efforts underway in the city. It is intended to save energy, money, and make your community more self sufficient.

WHAT ARE YOUR THOUGHTS?

If you are a resident of or business owner / operator in Sonora, we want to hear from you, online & in person! Details below.

WHY SHOULD I CARE ABOUT ENERGY?

When a community gets creative about the ways they use and source energy, the benefits run deeper than just saving money. Energy-efficient practices help lessen the generation load on existing plants and a plan for renewable energy opens opportunities for energy independence, community resilience and a more dynamic local economy.
