

BUSINESS LICENSE TAX/EXEMPT BENEFIT ZONE CHARGE CALCULATION

To calculate the appropriate amount due, complete the calculation section below. If you are renewing your license for a new year, the Benefit Zone your business is located in is indicated on the Application form, just above the red signature block, under the title "Type of Business". New businesses check with City Hall for the Benefit Zone your business is located in.

To determine the range your business falls within, calculate the number of employees as the actual number of employees on the payroll, rather than the equivalent number of full time employees. The total number claimed shall include the owner(s) of the business. If a business has no employees, and is thus operated by the owner(s), the total number of owner(s) shall be claimed.

The number of employees (including the owner(s)) for the annual fee shall be determined by the number of employees on the payroll for the period ended September 30th of the preceding year for which the fee is due.

Annual license taxes shall be due the first day of January of each year, and delinquent on January 31st.
POSTMARKS WILL NOT BE ACCEPTED.

NON-PRIMARY BUSINESS COMPLETE THIS BOX

If your business is located within the confines of another business, which may be considered the primary business within that building, you may not be required to pay the benefit zone fee. The primary business must agree to pay the benefit zone fee, for both businesses, in order for your business to be exempt.

Benefit Zone A businesses pay according to the number of owner(s)/employee(s) combination. Adding an additional business' staff may bump the fee up to the next range, increasing the fee for the primary business.

Indicate on the following line the name of the Business reporting you and your employees in their Benefit Zone Charge. This line must be completed if you are not reporting any Benefit Zone Charge.
