Our road, Hospital Rd which runs in front of our office Veterans Service Office is a cause of our concern.

1st: There is no cross walk from our parking area to both Behavior Health and Our office. Request a cross walk be painted from the side walk area to the building (Behavior Health Bldg) for safety purposes. The speed in which some individuals drive through this area, we've had yelling contest from near misses between pedestrian and motorist.

2<sup>nd</sup>: Cars come screaming up the road, which narrows near our section of the bldg. We have Veteran Parking in front of the building for those who have difficulty walking from the parking lot. Needless to say, these are mostly disabled vets getting in and out of their vehicles. However, when the cars come up the hill they do not slow down and the get very close to our vets getting out of their vehicles -- Near misses.

Requesting speed bumps be installed along with a sign indicating to slow down before they crest the hill.
