

The City of Sonora, PG&E, and the California Fire Foundation wants to make the public aware that California's fires continue to be the most deadliest and destructive in recent history. As weather heats up across California and increases wildfire risk, our state is experiencing a long hot summer thanks to record drought. Stay prepared and ready to evacuate in the event of a wildfire or other disasters such as floods and earthquakes.

Remember to.....

- Evacuate early when fire or disaster is present!**
- Discuss with family on where to meet if they cannot return home!**
- Prepare an emergency supply kit with essentials!**
- Familiarize yourself with Red Flag Warnings & how to get weather reports!**
